eFORMz[®]

Forms & Label Generation

ABOUT eFORMz

Minisoft's eFORMz is a powerful forms and label generation solution for formatting, personalizing and delivering application output. eFORMz takes standard print output from a software application system and transforms it into attractive, functional forms that can be distributed via print, email or archive.

FOR MORE THAN PACKING LISTS

eFORMz HIGHLIGHTS

Use eFORMz to produce a variety of customer-facing documents such as packing lists/collates, shipping labels, 1D/2D/QR barcodes, invoices, purchase orders, customs documentation, checks, bills of lading and more.

Customizable

eFORMz is one tool that can be used to solve a wide range of business challenges. Use eFORMz "conditional logic" to develop smart forms that can actually make decisions based on an incoming data or print stream.

Integration

eFORMz integrates with any WMS, ERP or Order Management system. eFORMz can capture print output from any of these systems and format it to produce customer-facing forms or labels.

Process Management

eFORMz extends existing business processes. eFORMz can eliminate any pre-printed form, merge data streams to create specialized documents and completely automate the generation of forms and labels.

Product Features

Application Support

enVista, Dynamics AX, Dynamics NAV, Dynamics 365, Epicor, HighJump, IBM Sterling Commerce, Infor SX.e, Infor XA, JDA, Manhattan Associates, NetSuite, Oracle JDE, Oracle Cloud WMS, QAD, SAP, SAP Biz.One, CGS BlueCherry ERP, Generix Group, Aptos & more

Operating Systems

Windows, Linux, IBM OS-400, AIX, HP/UX, iOS

General Features

Global Variables

Text to XML pre-processor

Load Images- JPG, PNG, BMP, TIFF, GIF, PRN

PDF Forms Fill-In

Digital Signature Capture

MICR-Checks

Rules-Based Decision Making and Conditional Logic

Dynamic Language Translation

Supported Barcodes & Fonts

1D, 2D & QR Barcode Creation
3 of 9, 3 of 9 EXT, 2 of 5, JAN 8, JAN 13, CODABAR, CODE 11, CODE 128, EAN 8, EAN 13, MSI, UPCA, UPCE, POSTNET, USER-DEFINED, INTELLIGENT MAIL. MaxiCode, Aztec, Data Matrix, PDF417, Quick Response (QR), RFID, GS1, UCC128/MH10

Special Fonts:

MICR13B, MICRCM7, OCRA, Secure Amount

Input

XML, ZPL, PDF, RTF, TXT, PCL, JSON

Printer Support

AFPDS, Datamax DPL, Epson ESC/POS, Intermec IPL, Intermec Fingerprint, PCL, PostScript, Printronix PGL, Sato SBPL, Toshiba TPCL, Zebra ZPL, Zebra EPL, Dymo, Avery/Monarch

Output

Collate/Uncollate Output

Duplex Print

Multiple Printer Trays

Print to Any Page Size
Custom, A5, A4, A3, Executive, Monarch, Letter, Com-10, Legal, DL, Ledger, B5, C5

Output as Email, PDF, HTML, XML, ZPL/EPL, JSON, Fax, Archive or Print

Integration Methods

Read/Write to Database via JDBC. Supported Databases include: SQL, Oracle, SAP-HANA, Progress, DB2, MYSQL & more

Virtual Printer, Monitor File Folder, Web Services, iSeries Data Queue, IBM MQ

Integration With Third-Party Archiving Solutions

Integration with MS Sharepoint, FileNet, OpenText, DocLib, DocuWare, OnBase, Documentum

Integration With Third-Party Shipping Solutions

Integration with Pacejet, Malvern, Proship, ShipStation, UPS Worldship, FedEx Ship Manager, MetaPack, Pierbridge, Logistyx, ShipFX, TranSend & more
