Auto-Applicator

The revolutionary Ward-Kraft patent pending Auto-Applicator consistently prints and dispenses our patent pending pressure-sensitive Dissolvable Liner™ and DuplexPackSlip® labels. The patent pending technology of our Auto-Applicator is the fastest in the industry. It is designed to speed up the distribution workflow and keep the shipping lines running faster.

GENERATION 1 APPLICATOR DIMENSIONS

- 48" deep
- 98" long including splice section without splicing 16" less
- 83" tall
- 18" stroke for robotic arm
- Additional mister required for use with Dissolvable Liner labels

ELECTRICAL REQUIREMENTS

- 20 AMP; 120/208 volt 3-Phase Y
- NEMA: L21-20P; Plug

SATO GY412

- Direct Thermal
- Up to 30 labels per minute
- Duplex

TSC MX240

- Direct Thermal
- Up to 33 labels per minute
- Simplex

BIXOLON XT5-40

- Direct Thermal
- Up to 33 labels per minute
- Simplex
